

RAY OCAMPO

Client Success & AI Solutions

Portland, OR | RayBOcampo@gmail.com | linkedin.com/in/RayBOcampo

PROFESSIONAL SUMMARY

Enterprise client success professional who now builds AI tools. Four years managing 40-plus B2B accounts, cutting churn, growing retention, and turning technical reality into language clients trust. I pair that client-facing track record with hands-on AI work: I design, build, and ship working tools on the Claude API, deployed and live. A decade of prior operations and public-sector experience grounds the work in the process-heavy environments where deployments actually succeed or fail. I connect the technology to the people who buy it, and I can explain every part of what I build.

FOCUS AREAS

Client Success & Retention • AI Tool Design & Deployment (Claude API, Next.js) • Solutions Consulting • Cross-Functional Delivery • Stakeholder Management • Process Improvement • Documentation & Enablement

TECHNICAL SKILLS

Claude API • Next.js • Vercel • Git & GitHub • Prompt Engineering • Salesforce • Microsoft 365 & SharePoint • Google Workspace • Smartsheet • Data Analytics

PROFESSIONAL EXPERIENCE

Client Success & Operations Expert

INFUSE, Portland, OR | March 2023 to Present

- Manage 40+ enterprise accounts, coordinating production, finance, and sales teams to deliver on time and on scope
- Reduced client churn by 22% and held 95% portfolio retention by identifying at-risk accounts and driving resolution before escalation
- Generated \$250K+ in expansion revenue by spotting gaps in client programs and coordinating solutions across product, sales, and delivery
- Serve as the primary connector between clients and internal teams, translating business needs into structured action plans
- Analyze 100+ accounts monthly to surface trends, flag risks, and deliver data-driven recommendations that improve client ROI
- Build and deploy AI tools that solve real client-communication problems, live at rayocampo.com

Operations Manager

Self Enhancement, Inc., Portland, OR | November 2019 to March 2023

- Led an enterprise technology deployment for 150+ employees, from vendor coordination through training and go-live with zero disruption
- Designed procurement systems processing \$200K+ annual spend, with approval workflows, budget controls, and compliance documentation
- Cut costs by 20% through process standardization and system integration; reported directly to the COO
- Managed \$170K in community support programs, coordinating logistics and vendors for 1,300+ beneficiaries

Administrative Coordinator

Multnomah County Human Services, Portland, OR | September 2012 to November 2019

- Processed 1,000+ annual service requests at 100% compliance with state regulations and audit requirements
- Developed documentation and training for 50+ service providers, reducing process errors by 35%

EDUCATION

Bachelor of Science, Journalism & Communication | University of Oregon, Eugene, OR
